

ZEN 81mm INTEGRATED MORTAR SIMULATOR (ZEN 81mm IMS)

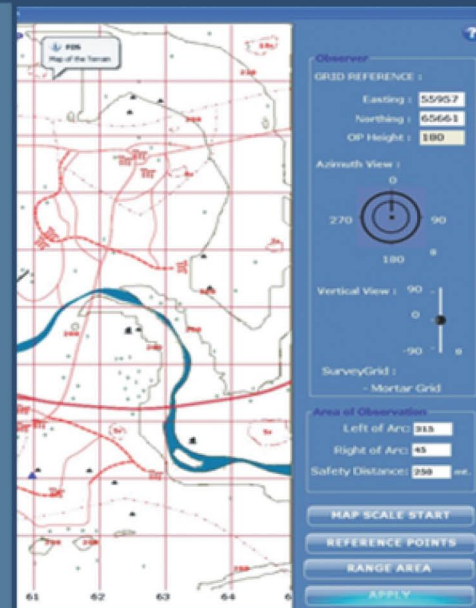

Zen 81mm Integrated Mortar Simulator trains and enhances skills of Mortar Fire Controllers (MFC), Mortar Position Controller (MPC) and the Mortar Detachments in the techniques of engaging and effectively destroying/neutralizing targets.

It allows you to overcome logistics problems and availability of ranges. The training can be conducted round the year in a room of 20 ft x 25 ft with mortar detachments training outside.

The simulator has 'To Scale' Mortars integrated with the Mortar Fire Controllers module to enable collective training. The Simulator is designed to take on 81/82mm Mortars of both degree and mils laying system. Configurable to 120mm and 160mm Mortars.

It facilitates engagement of target by single or multiple mortar platoons with a composition of four/six Mortars per platoon.

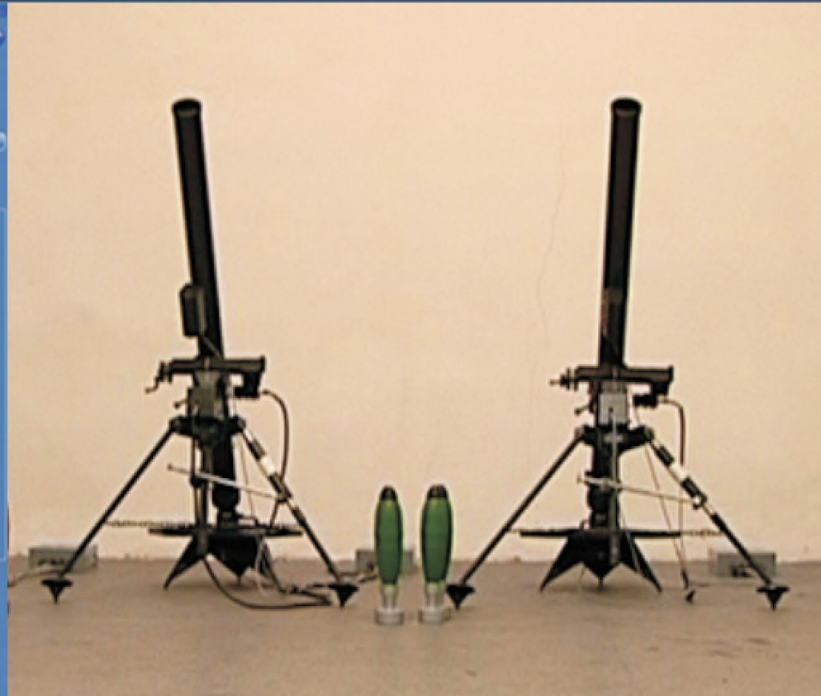

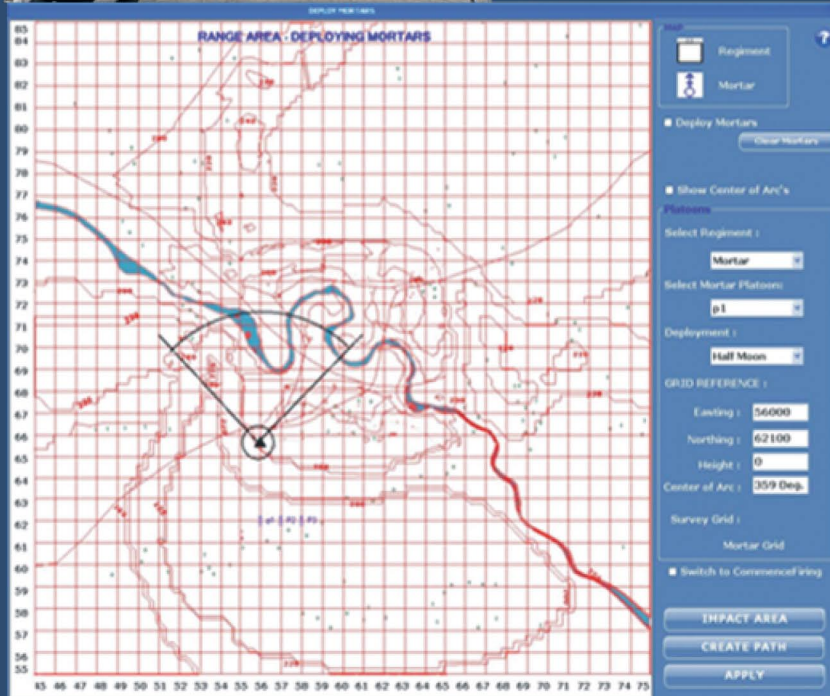

www.zentechologies.com

The simulator recreates range conditions for the Mortar Fire Controllers enabling you to conduct firing as in actual scenario, acquire target and pass data to Mortar Position Controller.

The training Simulator provides a wide range of 3D scenarios for all types of terrains, variety of targets, ammunition effects like blast, blind, splinter, flare, incendiary, smoke screen, coloured smoke, illumination etc.
