

ZEN INFANTRY COMBAT VEHICLE DRIVING SIMULATOR (ZEN BMP II DS)

Zen BMP II Driving Simulator (ZEN BMP II DS) trains raw recruits as well as trained Special Drivers to drive Infantry Combat Vehicle (ICV) or Armoured Personnel Carrier (APC) with precision in operational scenario.

The driver training simulator replicates ergonomics of driver cabin, look and feel of the driver's controls, indicators, viewing devices and instrument panels of a standard Infantry Combat Vehicle.

The ICV/APC simulator develops trainees' skills through comprehensive, preparatory, starting and stopping procedures, and, basic and advanced driving exercises.

Special exercises prepare drivers for loading/unloading on trailer/train/rolling stock, and floatation manoeuvres.
