

ZEN ADVANCED WEAPONS SIMULATOR (ZEN AWeSim®)

ZEN AWeSim® is a versatile indoor firearms training system designed to enhance weapon handling and firing skills of Recruits, Trained Soldiers and Commandos.

The simulator is excellent for imparting basic firearms training, honing firing skills, improving weapon handling and testing the skill level of trainees in complex and war-like scenarios.

Features:

- Two versions - with tethered weapons or with un-tethered weapons.
- Ideal for marksmanship, judgmental and reflex training.
- Six-lane system, upgradeable to ten lanes.
- Firing with recoil and sound effects.
- User defined scenarios and user controlled environmental factors.
- Supports squad post, zeroing, grouping exercises and application fire.
- All types of pistols , rifles and machine guns can be integrated with this system.
- Enables firing in standing, kneeling or lying down position.

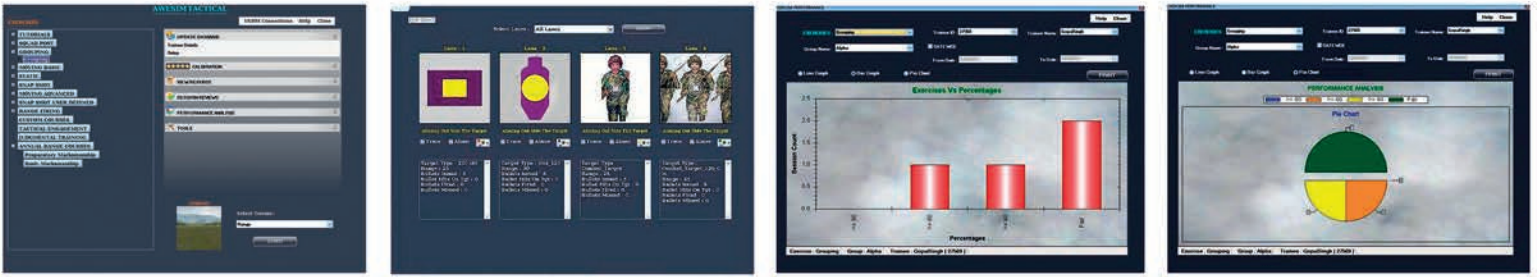

Advanced 3D CGI Scenarios

Training is imparted through the state-of-the-art 3D visualization software including Marksmanship module, Moving Target module, Reflex Shooting module, Field Firing module, Tactical Engagement, Judgmental Training, Annual Range Courses and Customized Courses.

Instructor Station Interface

To help trainees become skilled, crucial guidance is at hand with Instructor monitoring the training 'live'. Record, replay & print facility enables Instructor to pin point the errors of trainees and suggest corrective actions after each action review.

Gas operated replica of AK-47 and 5.56 INSAS rifles can be provided along with the simulator to avoid modification of service weapons.
