RAGHAVENDRA KAMATH
Mumbai, June 18

DLF, THE COUNTRY'S largest listed developer, on Wednesday said it has sold out all the homes in its luxury project Privana North in Gurugram, garnering around ₹11,000 crore in sales within a week. The project has 1,152 four-bedroom apartments, each priced at ₹9.5 crore. All the 12 penthouses, priced at around ₹25 crore each, have also been sold out, according to the company. It is the largest pre-sales done by a single real estate project in the country so far, said Aakash Ohri, joint managing director and chief business officer of DLF Home Developers, in an interaction with *FE*. Ohri said Privana North is one of the biggest luxury projects of the company. The project, part of township DLF Privana, spans over 116 acre and is located in Sectors 76 and 77, Gurugram. Privana North is spread over 17.7 acre and it features six premium towers rising to stilt+50 storeys, making them the tallest residential structures developed by DLF to date, the company said. "With only 65 residences per acre and an impressive open space ratio, Privana North strengthens its position as a premier residential destination. We saw interest from buyers across the country and even around the world," Ohri said. He said 30% of the sales came from non-resident Indians (NRIs). Privana North provides an uninterrupted view of a 500-

Chandrasekaran 'apologises' for Ahmedabad AI plane crash

TATA SONS AND Air India chairman N Chandrasekaran on Wednesday "apologised" for the Air India plane crash in Ahmedabad last week that claimed more than 270 lives.

In an interview with a TV channel, Chandrasekaran said, "It is an extremely difficult situation where I have no words to express to console any of the families of those who died." "I deeply regret that this accident happened in a Tata-run airline. And I feel very sorry. All we can do is to be with the families at this time, grieve with them and we will do everything to support them at this hour and beyond," Chandrasekaran was quoted as saying in a release.

Over 270 people were killed on June 12 when a London-bound Air India plane—a Boeing 787-8 Dreamliner—carrying 242 passengers and crew crashed into a medical college complex in Ahmedabad and crashed less than a minute after takeoff.

Tata Sons and Air India chairman N Chandrasekaran

Specifically asked about the reason for the crash and whether Air India is privy to any preliminary findings, he said, "One would have to wait for the probe to conclude." The Aircraft Accident Investigation Bureau has begun its investigations into the crash, and the DGCA has also appointed a committee.

Chandrasekaran said that it could be a month until some of the preliminary findings are

out. He, however, claimed that AI171, the flight that crashed, had a clean history and there were no red flags that had been raised. "There are speculations about human error, speculations about airlines, speculations about engines, maintenance, all kinds," he said.

"There are a lot of speculations and lot of theories. But the fact that I know so far is this particular aircraft, this specific tail, AI-171 has a clean history. As for the engines, the right engine was a new engine put in March 2025. The left engine was last serviced in 2023 and due for its next maintenance check in December 2025. Both engine histories are clean.

"Both pilots were exceptional. Captain Sabharwal had more than 11,500 hours of flying experience, the first officer Clive (Kundar) had more than 3,400 hours of flying experience. So, we can't jump to any conclusions." —PTI

stake and size of the deal.
