Exp. 2022-01-30 / Appraisal #2306

Zen Technologies has been granted a patent by UK Patent office for Containerised Tubular Shooting Range (CTSR). With the rapid increase in urbanisation, the shooting ranges in the suburban areas have been swallowed by growing urban landscape. In addition, the super sensitivity pertaining to environment pollution caused by a shooting range is ensuring that ranges are slowly becoming an endangered specie.

CTSR is a Range-In-a-Container Solution where security forces can train their personnel rapidly and efficiently with much more effectiveness than conventional ranges. The system eliminates the need for huge swathes of land and the threat of environment pollution. The solution also frees up very valuable land for the purpose of alternative use.

This product is expected to have a significant demand overseas where the sensitivity pertaining to ranges is very high. In India, it is being used in Indira Gandhi International Airport, New Delhi and many other locations. The system has also been exported.

The valuable patent will give us an exclusive right to many foreign markets.

**About Zen Technologies Ltd. (Zentec)**

Zen Technologies is a leading defense training solutions provider. It was incorporated in the year 1993 with an aim to develop state-of-the-art training simulators for weapons and allied defence equipment.

Zen, over the years, has developed expertise in designing, developing and manufacturing various types of simulators. The company has supplied over 450 simulators to over 100 customers. Its customers are located across the length and breadth of the country. Its main customers are Defence, Services, State Police forces, Para Military forces and the Navy of a South-East Asian country.
