## COVID RAMPAGE UNABATED

## OXYGEN CRISIS

## 12 die in Delhi hospital; HC says 'enough is enough'

**Directs central govt to provide city with oxygen or face contempt**

PRESS TRUST OF INDIA  
New Delhi, May 1

**TWELVE PATIENTS AT Delhi's** Batra Hospital, including a senior doctor, died on Saturday and at least two other hospitals reported precipitous drops in their oxygen stocks, as the Delhi High Court stepped in and directed the Centre to provide the city with oxygen on Saturday itself or face contempt.

With the death of the 12 patients in the south Delhi hospital — which announced at 12.30 pm that it had run out of oxygen — the number of hospital patients who have lost their lives in the deepening crisis in the last eight days has gone up to 57.

"Water has gone above the head. Now we mean business. Enough is enough," a bench of Justices Vipin Sanghi and Rekha Palli said and asked the Centre to supply 490 metric tonnes of oxygen to Delhi and stated, "You fulfill it."

As the court heard the case, time was running out for other critically ill patients in Batra and

**"Water has gone above the head. Now we mean business. Enough is enough," a bench of Justices Vipin Sanghi and Rekha Palli said and asked the Centre to supply 490 metric tonnes of oxygen to Delhi and stated, "You fulfill it."**

the Supreme Court, which will make its order public on Saturday.

It also declined the Centre's request to defer the order — till Monday or for half-an-hour. The tough-talking court said the Centre has made an allocation of 490 metric tonnes of oxygen to Delhi and stated, "You fulfill it."

As the court heard the case, time was running out for other critically ill patients in Batra and

## 18, including 16 Covid patients, killed in Gujarat hospital fire

AT LEAST 18 persons, including 16 Covid patients, died in a fire at a hospital at Bharuch in Gujarat in the early hours of Saturday, officials said.

The state government said a judicial inquiry will be conducted into the fire that destroyed the ICU of Patel Welfare Hospital, run by a charitable trust. "Sixteen Coronavirus patients and two nursing staff were either charred to death or died due to suffocation inside a Covid-19 unit," superintendent of police Rajendrasinh Chudasama said.

As many as 50 patients were undergoing treatment at the Covid-19 facility on the ground floor when fire broke out in the ICU around 1 am, probably because of short circuit, said a hospital official.

The fire was doused within an hour. Local people and the kin of patients helped in the rescue operation during which dozens of patients were shifted to other facilities by ambulance. Some were brought out of the building on wheelchairs or on make-shift stretchers of cloth.

The four-storey designated COVID-19 hospital stands on the Bharuch-Jambusar highway, 190 km from Ahmedabad. Gujarat CM Vijay Rupani announced ex-gratia aid of ₹4 lakh to the next of kin of the deceased. He also directed additional chief secretary (Labour) Vipul Mittra and Commissioner of Municipalities Administration Rajkumar Beniwal to conduct inquiry. The two IAS officials arrived at the site on Saturday afternoon and visited the ICU. The government will also institute a judicial inquiry into the tragedy, Rupani told reporters.

other places.

Batra first reported the deaths of eight, and revised the toll to 12 by evening.

"We are trying to resuscitate five other critical patients," Dr S C L Gupta, medical director of Batra hospital, told PTI earlier in the day. Six of the pa-

tients who died were admitted to the ICU, he said. Among those who died due to the lack of oxygen were Dr R K Himthani, head of the gastroenterology department who had been admitted to the hospital for the last 15-20 days.

mainly because of fewer economic activities following the imposition of lockdown by the government in the last week of March 2020 to contain the

spread of deadly Covid-19.

Similarly, peak power demand met or the highest power supply in a day also slumped to 132.73 GW in April last year from 176.81 GW in the same month in 2019, showing the impact of lockdown on economic activities. Experts are of the view that high growth in power consumption as well as demand in April is mainly because of base erosion last year due to fewer economic activities which proved as dampener on

## Timelines for tax compliance extended; ITR for FY20 can be filed till May 31

PRESS TRUST OF INDIA  
New Delhi, May 1

**THE GOVERNMENT ON Saturday** extended timelines for various income tax compliances, including the filing of belated or revised return for the 2019-20 fiscal, till May 31. The Central Board of Direct Taxes (CBDT) said it had received rep-

resentations from various stakeholders for relaxation on compliance requirements.

"In view of the adverse circumstances arising due to the severe Covid-19 pandemic and also in view of the several requests received from taxpayers, tax consultants & other stakeholders from across the country, requesting that various compli-

ance dates may be relaxed, the Government has extended certain timelines today," an official statement said.

Filing of belated return under sub-section (4) and revised return under sub-section (5) of Section 139 of the Act, for Assessment Year 2020-21, which was required to be filed on or before March 31, 2021,

may be filed on or before May 31, 2021, the CBDT said. Income-tax return in response to notice under Section 148 of the Act, for which the last date of filing of return of income under the said notice is April 1, 2021, or thereafter, may be filed within the time allowed under that notice or May 31, 2021, whichever is later.

## IP protection: US puts India on Priority Watch List

LALIT K JHA  
Washington, May 1

**THE UNITED STATES ON Friday** placed India and eight other countries on the Priority Watch List for IP protection and enforcement.

The other countries that have been put on the list are Argentina, Chile, China, Indonesia, Russia, Saudi Arabia, Ukraine and Venezuela.

In its "Special 301 Report" on the adequacy and effectiveness of US trading partners' protection and enforcement of intellectual property rights, US Trade Representative Katherine Tai said these countries will be the subject of intense bilateral engagement during the coming year. "Over the past year, India has remained inconsistent in its progress on intellectual property (IP) protection and enforcement. While India's enforcement of IP in the online sphere has gradually improved, a lack of concrete benefits for innovators and creators persists, which continues to undermine their efforts. India remains one of the world's most challenging major economies

with respect to protection and enforcement of IP," she said. The office of the USTR reviewed more than 100 trading partners for this year's "Special 301 Report", and eight on Priority Watch List and 23 on the Watch List. The 23 trading partners on the Watch List are Algeria, Barbados, Bolivia, Brazil, Canada, Colombia, Dominican Republic, Ecuador, Egypt, Guatemala, Kuwait, Lebanon, Mexico, Pakistan, Paraguay, Peru, Romania, Thailand, Trinidad & Tobago, Turkey, Turkmenistan, Uzbekistan, and Vietnam. "Intellectual property rights incentivise our creators, manufacturers, and innovators to invent new products and technologies," said Katherine Tai.

The laws, policies and practices that protect those rights must appropriately balance the interests of creators with those seeking to use their creations. Failing to adequately and effectively protect those rights in foreign markets hurts the US economy, the dynamism of American innovators and the livelihoods of our workers, she said.

—PTI

## India's power consumption grows 41% in April

PRESS TRUST OF INDIA  
New Delhi, May 1

**POWER CONSUMPTION IN** the country grew 41% in April 2021 to 119.27 billion units (BU) over the same month last year, showing robust recovery in industrial and commercial demand of electricity, according to power ministry data.

Power consumption in April last year was recorded at 84.55 BU. On the other hand, peak power demand met, which is

the highest supply in a day, during the first half of this month remained well above the highest record of 132.20 GW in April 2020. During April this year, peak power demand met or the highest supply in a day touched the highest level of 182.55 GW and recorded a growth of nearly 38% over 132.73 GW recorded in the same month in 2020.

Power consumption in April last year had dropped to 84.55 BU from 110.11 BU in the same month in 2019. This happened

mainly because of fewer economic activities following the imposition of lockdown by the government in the last week of March 2020 to contain the

spread of deadly Covid-19. Similarly, peak power demand met or the highest power supply in a day also slumped to 132.73 GW in April last year from 176.81 GW in the same month in 2019, showing the impact of lockdown on economic activities. Experts are of the view that high growth in power consumption as well as demand in April is mainly because of base erosion last year due to fewer economic activities which proved as dampener on

commercial and industrial consumption of electricity due to lockdown. They said, "Now the high growth rate of power consumption has shown a healthy recovery in commercial and industrial demand." However, they cautioned that local lockdowns across the country to curb the surge of Covid-19 positive cases may impact commercial and industrial power consumption adversely in coming months. After a gap of six months, power consumption

had recorded a 4.6% year-on-year growth in September and 11.6% in October. In November 2020, the power consumption growth slowed to 3.12 per cent, mainly due to the early onset of winters. In December, power consumption grew by 4.5% while it was 4.4 per cent in January 2021. Power consumption in February this year recorded higher at 104.11 BU compared to 103.81 BU last year despite the fact that 2020 was a leap year.

## Australia bans arrivals from India; offenders to face 5-year jail term

NATASHA CHAKU  
Melbourne, May 1

**AUSTRALIAN CITIZENS COULD** face five-year jail term or hefty fines up to \$66,000 if they try to return home from India after Canberra made the journey temporarily illegal in an effort to curb the spread of the deadly viral infection in this country.

The temporary ban begins on Monday and applies to any travellers who have visited India within 14 days of their intended arrival date in Australia.

There are an estimated 9,000 Australians in India and over 600 of them are classified as vulnerable, according to *The Sydney Morning Herald* newspaper. The decision was announced by the health ministry on Friday after a meeting of the National Cabinet. The move aims at keeping the coronavirus spread in check in Australia as India is facing a surge in infections cases. The decision was based on the proportion of overseas travellers in quarantine in Australia, who have contracted the infection in India, health minister Greg Hunt said.

The move was due to an "unmanageable" number of arrivals from the country who have tested positive to Covid-19, he was quoted as saying by the state-run Australian Broadcasting Corporation (ABC).

Breaches of the travel ban could lead to five years' imprisonment, a 66,000-Australian dollar (\$50,876) fine or both, the report said. "Failure to comply with an emergency determination under the Biosecurity Act, 2015 may incur a civil penalty of 300 penalty units, five years' imprisonment or both," the health ministry said in a statement.

Australia's borders have been closed since March last year and, this week, the government

AP File photo of a woman walking past a fence with a Covid warning near the harbour foreshore in Sydney

clamped down even further, banning all flights, including repatriation dashes, from India. According to the ABC, it is for the first time that Australia has made it a criminal offence for its own citizens to enter the country. The ministry said the decision will be revised on May 15 following advice from the chief medical officer (CMO).

"The CMO will consider the epidemiology in India and likely impacts on Australia's quarantine capacity, and provide a further expert assessment of the public health risk to Australia to inform a proportionate response," it said.

The ministry statement said it is important that the integrity of the Australian public health and quarantine system are protected and the number of cases in isolation facilities is reduced to a manageable level. The statement also expressed solidarity with India, saying, "Our hearts go out to the people of India and our Indian-Australian community.

The friends and family of those in Australia are in extreme risk." Meanwhile, the government's decision has also been criticised by several people. Epidemiologist Michael Toole, from the Burnet Institute, said the decision to ban travel from India reflects the level of confidence the government has in

the quarantine system. "To me it reflects a lack of confidence in the system, and I think that is a shame," Toole was quoted as saying by the ABC.

By his count, there have been 16 separate leaks in hotel quarantine in five capital cities since November last year. Opposition MP Jason Clare said making it a crime for Australians to return home goes too far. "I think what we should be doing is trying to make it easier for people to get home," he said, while suggesting that quarantining travellers on Christmas Island could be a solution. Melbourne General Practitioner and health commentator Vyom Sharma said the move by the federal government was disproportionate to the threat posed by returning travellers. "It is incredibly disproportionate to the threat that is posed... my concern is that the government is so sensitive to the risk that they can't take in this increased load of people coming in," he said. Sharma said the move appears to be inconsistent with responses to earlier outbreaks in Europe and the US. "What strikes me as also bizarre is that USA back in January was returning to us Australians, in much higher quantities of people, who were testing positive and yet there was no talk of plan banning those flights then," he said.

"Our families are quite literally dying in India overseas. —PTI
