Zen Technologies Secures Rs. 37 Crore Order from Ministry of Defence for Advanced Anti-Drone Systems

Zen Technologies Limited announced that it has received a significant order worth approximately Rs. 37 crores from the Ministry of Defence, Government of India, for the supply of state-of-the-art Anti-Drone Systems with Hard Kill capabilities.

The order represents a strategic milestone in Zen Technologies' ongoing partnership with India's defence establishment and underscores the company's leadership position in the Counter-Unmanned Aerial Systems (C-UAS) domain. The contract is expected to be executed within 12 months.

Zen's Anti-Drone Systems are designed to detect, track, and neutralize hostile unmanned aerial threats using advanced sensor fusion, electronic warfare, and kinetic response mechanisms. The "Hard Kill" capability ensures physical destruction of hostile drones, making it one of the most effective counter-drone technologies available globally. These systems are vital to addressing the growing challenges posed by unmanned aerial threats, which have seen a significant rise in recent years, particularly in border regions and around critical infrastructure.

Speaking on the development, Mr. Ashok Atluri, Chairman and Managing Director, Zen Technologies Limited, said: "We are honoured to receive this order from the Ministry of Defence, which reaffirms the Indian Armed Forces' trust in our indigenously developed technologies. Our Anti-Drone Systems represent the pinnacle of Indian innovation in addressing evolving security challenges. With drones increasingly used for surveillance, smuggling, and asymmetric warfare, deploying counter-drone systems has become a strategic necessity. This order underscores the importance of robust, indigenously designed and developed high-tech products and validates our sustained investments in R&D. Zen Technologies remains committed to advancing India's defence modernization and self-reliance initiatives."

About Zen Technologies Limited

Zen Technologies Limited is a pioneer and leader in providing world class state-of-the art Defense Training and Anti-Drone solutions and has a proven track record in building training systems for imparting defense training and measuring combat readiness of security forces. With a dedicated R&D (recognized by the Ministry of Science and Technology, Government of India) and production facility in Hyderabad, the company has applied for over 172+ patents and shipped more than 1,000 training systems around the world. With over 30 years' experience fielding realistic combat training solutions to armed forces worldwide, Zen constantly updates its portfolio to include new solutions for emergent threats. Leveraging their world-class, in-house production facilities, Zen has developed strategic solutions tailored to the specific needs of End Users Ministry of Interiors and Ministry of Defence including customized training programs aligned with the requirements of the U.S. Army and U.S. Department of Defense.
