Zen Technologies Completes 100% Acquisition of Applied Research International

Hyderabad, India – October 17, 2025: Zen Technologies Limited announced that it has completed the acquisition of the remaining 24% equity stake in Applied Research International Private Limited (ARIPL), following its earlier purchase of a 76% stake in February 2025. With this transaction, ARIPL has now become a wholly owned subsidiary of Zen Technologies.

This strategic acquisition strengthens Zen Technologies' position as one of India's most diversified simulation and defence technology companies. Full ownership of ARIPL enables Zen to extend its simulation expertise into the naval and marine domains, complementing its existing leadership in land and air defence solutions.

With this integration, Zen Technologies will now be able to deliver comprehensive, multi-domain simulation and training systems that cater to the evolving requirements of the Indian Army, Navy and Air Force. This acquisition represents a key step in Zen's mission to provide advanced, indigenously designed defence technologies that enhance preparedness, reduce foreign dependency, and improve operational readiness across Indian armed forces.

Ashok Atluri, Chairman and Managing Director of Zen Technologies, said:

"The completion of this acquisition marks a significant step in Zen Technologies' journey toward building a comprehensive simulation portfolio across the defence spectrum. By bringing ARIPL's maritime and naval expertise under the Zen umbrella, we are expanding our presence from land into the sea domain, strengthening our ability to deliver integrated simulation and training solutions across multiple services.

This integration will enable us to design and develop new products for naval markets in India and overseas, while supporting ARI already a leader in the marine domain to penetrate deeper and compete for large, high-value contracts. This acquisition positions Zen strongly in land and sea simulations, setting the stage for our future expansion into the air domain."

About Zen Technologies Limited

Zen Technologies Limited is a pioneer and leader in providing world class state-of-the-art Defence Training and Anti-Drone solutions and has a proven track record in building training systems for imparting defense training and measuring combat readiness of security forces. With a dedicated R&D (recognized by the Ministry of Science and Technology, Government of India) and production facility in Hyderabad, the company has applied for over 180+ patents and shipped more than 1,000 training systems around the world.
