Press & Media Release

Hyderabad, July 19th, 2021

ZEN TECHNOLOGIES SECURES EXPORT ORDER OF ~ ₹120 CRORES

Zen Technologies Limited has been awarded a ~ ₹120-crore export contract. The simulators are the main focus of the order. The order will be carried out in roughly a year. In the face of stiff worldwide competition from multinational corporations, Zen Technologies emerged as the lead runner. Owing to a confidentiality agreement, the customer's identity cannot be published due to the nature of the deal.

Commenting on the order win, Mr. Ashok Atluri, Chairman, Managing Director & CFO commented:

“This order was on the back of a very rigorous purchase process followed by the customer. Government of India also provided active support, among other things by facilitating quicker visits (during COVID) by the customer.”

He added that “There is an increasing demand from countries for anti-drone systems and training solutions. After the slow-down caused by Covid, the interest from various countries is slowly gathering pace. This has definitely translated into a good pipeline of opportunities that Zen can address in the near term.”

About Zen Technologies Limited

Zen Technologies Limited is a pioneer and leader in providing world class state of art Defence Training Solutions and has a proven and impeccable track record in building training systems for imparting defense training and measuring combat readiness of security forces. The company is engaged in indigenous design, development and manufacture of sensors and simulators technology based defence training systems and has relentlessly been providing Defence Training Solutions and seamless services to Ministry of Defence (Armed Forces), Security Forces Police, Para-military forces and is privileged to have served the nation for over 2.5 decades.

The company manufactures land based military training simulators, driving simulators, Live range equipment and Anti drone Systems. With a dedicated R&D (recognized by the Ministry of Science and Technology, Government of India) and production facility in Hyderabad, the company has applied for over 90 patents and shipped more than 1000 training systems around the world.
