=====  
**Rockwell Collins, Zen Technologies Limited to combine simulation and training forces in India**

***Companies will work together to provide Indian military simulation and training solutions***

**NEW DELHI, India, 7 October 2014** - Rockwell Collins and Zen Technologies Limited announced today that the two companies have signed a memorandum of understanding to combine their strengths in simulation and training to offer industry-leading, high fidelity solutions to Indian military customers.

Rockwell Collins, based in Cedar Rapids, Iowa, with facilities in Hyderabad and near New Delhi, provides world-class aviation simulation and training products, systems and integration solutions. Zen Technologies Limited, based in Hyderabad, India, specializes in supplying industry-leading ground military simulation and training solutions.

“Our relationship with Zen Technologies Limited will open up avenues to further extend our reach in the Indian defence market, and allows Rockwell Collins to offer superior end-to-end solutions that militaries utilize throughout the world,” said LeAnn Ridgeway, Vice President and General Manager, Simulation & Training Solutions for Rockwell Collins. “Combining the strengths of our two companies will provide Indian military customers with air and ground solutions that will better prepare their soldiers and airmen to successfully complete missions.”

Jim Walker, Vice President and Managing Director of Asia Pacific for Rockwell Collins, said that India is a very promising market for the aerospace and defence sector.

“We want to work closely with the industry to ensure they have easy access to innovative solutions,” said Walker. “We are here for the long term and through this partnership we want to develop locally, and market directly, advanced solutions and services for India. We will continue to invest in India through steady growth, strategic partnerships and by strengthening existing customer relations.”

The announcement coincides with the recent launch of the “Make in India” campaign, which is aimed at enhancing the country’s prominence in global manufacturing while creating jobs by increasing the flow of new technology and capital. The memorandum of understanding also marks the first time that a global simulator original equipment manufacturer has partnered with an Indian simulator manufacturing company to cater to the Indian defence market.

"We are delighted to enter into the flight simulation segment by virtue of our alliance with a renowned and leading organization like Rockwell Collins. Zen Technologies Limited has over the years emerged as a strong force in the field of land forces simulation in India and we are very optimistic that through this alliance we will be able to fill the gap in our capabilities to serve the burgeoning need of the flight simulation market in India," said Zen Technologies Limited President A. Kishore Dutt. "With Rockwell Collins' global footprint, Zen Technologies Limited will be able to access new markets. This is a perfect fit."

In 2008, Rockwell Collins opened a design center in Hyderabad, India, to augment the company's existing engineering capabilities. The India Design Center (IDC) was created to help Rockwell Collins expand its global footprint, meet the needs of customers in this region, and increase access to high-quality engineering and design talent. The IDC currently has 600 employees.

#### **About Rockwell Collins**

Rockwell Collins is a pioneer in the development and deployment of innovative communication and aviation electronic solutions for both commercial and government applications. Our expertise in flight deck avionics, cabin electronics, mission communications, simulation and training, and information management is delivered by a global workforce, and a service and support network that crosses more than 150 countries. To find out more, please visit [www.rockwellcollins.com](http://www.rockwellcollins.com).

#### **About Zen Technologies Limited**

Zen Technologies Limited (BSE: 533339) develops state-of-the-art training equipment and simulators for weapons and allied defence equipment. Zen, incorporated in 1993, with headquarters in Hyderabad, has over the years designed, developed and manufactured various types of training equipment and simulators. The products developed in-house meet high qualitative standards and are cost-effective. The company has supplied over 450 simulators to over 100 customers across all the three armed forces, State and Central Police Forces of India and other countries. With the aim to develop world-class training equipment and simulators, the company attaches special importance to R&D with its facility being recognized by the Department of Scientific and Industrial Research, Ministry of Science and Technology, Government of India. Zen has an ISO 9001:2008 (QMS), ISO 27001:2005 (ISMS) Certification and is a CMMI Level 3 company.
